

Health Care & Long-Term Care Costs Of Alzheimer's Disease And Related Dementias

Thursday, Oct. 3 • 12 noon – 1 PM

Imperial Building, 215 Morris St., 2nd Floor

**Norma Coe, PhD,
Associate Professor,
Medical Ethics and Health
Policy, Perelman School of
Medicine**

Dr. Coe's research interests are in health economics and public finance, identifying causal effects of policies that directly and indirectly impact health, human behavior, and health care access and utilization.

During this Population Health Sciences External Speaker Series event, Dr. Coe will discuss:

- The incremental cost estimates of Alzheimer's disease and related dementias over the first five years after onset.
- The costs to traditional Medicare and Medicaid and out-of-pocket spending.
- Methods developed by Anirban Basu and Willard G Manning that estimate the roles of survival and utilization differences due to the disease.
